

Discussion Starters

1. Have you ever heard God's voice clearly? Take some time to share those stories with your group.
2. Of the various reasons that God seems to be silent, which one resonates most with you? Why?
3. God invites us to an ongoing, personal relationship in which he wants to form us and use us in his plan to redeem and restore the world. The problem is, we are so busy that we lose sight of this reality and our lives become smaller because of it. So for the next few weeks, set an alarm on your watch, computer, or phone that will go off every hour you are awake to remind that God wants to be actively involved in forming you and using you in the day to day stuff of life. Let the alarm remind you that God wants to speak to you in whatever situation you are in.
